MEMORANDUM FOR: Chief, Litigation and Legislation Division
Office of General Counsel

FROM:

[Redacted]

Legislation Division
Office of Legislative Liaison

SUBJECT: Proposed OMB Guidelines on New
Legislative Initiatives

1. Attached are proposed Office of Management and Budget (OMB) guidelines to federal agencies specifying the criteria that will be used to judge legislative proposals involving federal criminal law enforcement authorities. We have been asked to comment on these guidelines by 28 February 1983.

2. While this Agency has no law enforcement powers, we have on occasion requested OMB clearance for legislative proposals that would confer on Agency officers certain law enforcement functions. For example, we have recently requested clearance for a legislative proposal that would permit the Agency to receive a delegation from the General Services Administration (GSA) of certain protective authorities that are currently exercised by GSA. In the future, these types of proposals would have to meet the criteria contained in the guidelines.

3. I would appreciate your comments, if any, on these proposed guidelines.
